Transportation cancellations and delays will be made based on Zones. Please find your child's school district and special education program on the Zone Table. When there is a delay or closing in the zone where your child lives **OR** zone where your child attends a special education program, PrismaticSBL may cancel or delay County transportation.

If your child lives in one zone and attends a special education program in a different zone, transportation may be impacted by cancellations in either zone. For example, if your child lives in the Newburgh School District (Zone 3) and attends Inspire Kids - Goshen (Zone 2), then transportation is impacted for your child whenever Orange County preschool transportation is delayed or cancelled for either Zone 2 OR 3.

Whenever PrismaticSBL delays or cancels County preschool transportation, it will be announced on radio station WHUD. You can also call PrismaticSBL at 845-520-3110, option 0, for weather cancellation updates.
